

The Arizona Psychological Association is pleased to announce the opening of our call for abstract submissions for the 2022 Annual Convention!

Invitation to Participate

The Arizona Psychological Association (AzPA) invites the submission of abstracts for program sessions to be considered for presentation at the AzPA 2022 Annual Convention. **The program will be presented in a live in-person format on September 30 or October 1, 2022.**

The Convention Committee is working to create a program in that will offer a great educational experience for all. Our goal is to promote evidence-based care, education, research, and public policy.

Submit Today!

AzPA 2022 Annual Convention

Dates: September 30 & October 1, 2022

Location: Prescott Conference Resort, Prescott, AZ

Submission Deadline: Friday, May 13, 2022, at 5:00 pm MST

Submissions should be sent as an attachment to AzPA Coordinator, Jessica Painter: jessica@azpa.org

Questions? Contact Jessica Painter at 480-675-9477 or jessica@azpa.org

Submission Guidelines

Program submissions must be submitted with the following components:

- Program Title
- Speaker(s) Name(s)
- Speaker(s) Short Bio
- Speaker(s) Curriculum Vitae
- Program Description: Please provide a brief program description.
- References: Program references must be in APA format. Must include a minimum of three references from peer-reviewed sources, although additional references are encouraged. References must not be older than ten years.
- Learning Objectives: Rather than a description of topics to be covered, learning objectives should clearly define what the participant will be able to demonstrate regarding knowledge gained and/or skills acquired because of having attended the program. Appropriate objectives employ observable, behavioral action verbs and are stated in measurable terms, e.g. “describe 2 methods...”, “define 3 terms...”, “identify 3 outcomes demonstrating the efficacy of EMDR.” Appropriate verbs can be found in Bloom’s Taxonomy.
- Specified Criterion: Please select the single most relevant criterion from the list below. Please explain how the content of your program supports the chosen criterion.
 1. Program content focuses on application of psychological assessment and/or intervention methods that have overall consistent and credible empirical support in the contemporary peer reviewed scientific literature beyond those publications and other types of communications devoted primarily to the promotion of the approach.
 2. Program content focuses on ethical, legal, statutory or regulatory policies, guidelines, and standards that impact psychological practice, education, or research.
 3. Program content focuses on topics related to psychological practice, education, or research other than application of psychological assessment and/or intervention methods that are supported by contemporary scholarship grounded in established research procedures.
- Diversity Statement: Describe how your program respects and attends to diversity in its content and the application of concepts presented. Explain which diverse populations are addressed reflected in and drawn from your title, program description, learning objectives and references. Diversity includes but is not limited to culture, gender, sexual orientation, racial, ethnic, disability, age, religion or socioeconomic differences.

Please note, the components requested above will be used to apply for CE credits. Program description, references and learning objectives should be cohesive. If selected, AzPA’s CE Committee may require revisions or additional materials to approve your session for APA CE Credit.
