

RedHouse
MEDICAL BILLING

Greetings AzPA Members,

I am proud to announce a new member benefit provided by Red House Medical Billing. As a partnering supporter of AzPA, Red House is now our preferred billing vendor and members are eligible for the following benefits:

1. Discount on Billing Services

As an AzPA member, you receive discounts, starting at 10%, on your billing services with Red House.

2. Free Coding and Questions Hotline

Call for free anytime to ask questions about billing, coding, credentialing, and anything else related to your cash flow. If you need project help or ongoing consulting, we offer you a discounted rate of \$35/hour for consulting.

1-623-399-9280 ext 101

3. Discount on Credentialing

If you do not need billing help, AzPA members still have credentialing assistance for a reduced rate of \$150 per submission per provider. We will fill out the paperwork, submit, and follow the process through acceptance into the network.

4. New Practice

Thinking of opening your own practice and don't know how to proceed? We have helped open dozens of new practices. As a free benefit to AzPA members, we will offer you a free consulting session to help walk you through what is needed to start a company. Aside from the cash flow elements of our conversation, we will review legal, tax, HR, and other compliance issues you need to consider as you start your practice.

Red House Medical Billing is an Arizona based billing company which has worked with psychologists, and other specialties, for over 15 years. Red House already works with

many AzPA members and over the years, psychology has become their most significant internal specialty.

To reach out to them, please contact either of the owners.
You can also find them online at redhousemed.com.
